Higher Education

Sept. 2024– **PhD in Applied Mathematics**, *University of Bordeaux*, France,
Topic: Stochastic algorithms in high dimensional with applications in statistical learning
Supervisors: Bernard Bercu and Luis Fredes.

2022–2024 **MSc in Statistical and Stochastic Modeling**, *University of Bordeaux*, France

2018–2021 **Bachelor's degree**, *University of Parakou*, Benin,
- *Bachelor's degree in Applied Statistics (2021)*
- *Bachelor's degree in International Economy and Finance (2021)*

2015–2018 **High school**, *Lycée Mathieu Bouké*, Benin

Teaching experience

2026– **Descriptive statistics (Bachelor)**, *University of Bordeaux*

2025– 2026 **Stochastic algorithms (Master)**, *University of Bordeaux*

2025– 2026 **Probability & Statistics (Bachelor)**, *University of Bordeaux*

2024– 2026 **Mathematical Tools (Bachelor)**, *University of Bordeaux*

2024– 2025 **Scientific Methodology (Bachelor)**, *University of Bordeaux*

Other professional experiences

Feb. 2024–Jul. 2024 **Internship**, *Institut de Mathématiques de Bordeaux, University of Bordeaux*, France,
Topic: Study of the asymptotic normality of the SAGA algorithm.
Supervisors: Bernard Bercu and Luis Fredes

Jul. 2021–Aug. 2021 **Internship**, *Cotton Research Institute*, Benin,
Topic: Modeling data on cotton insect pests in Benin (with R).

Aug.2020–Sept.2020 **Internship**, *National Institute of Agricultural Research in Benin* , Benin,
Topic: Collection and processing of agricultural data (with Stata and R).

Publications

2025 **A hybrid stochastic Newton algorithm for logistic regression.** *with B. Bercu and L. Fredes. Arxiv 2512.01790 (to appear in Computational Optimization and Applications).*

2025 **A stochastic gradient descent algorithm with random search directions,** *19 pages. Transactions on Machine Learning Research.*

2024 **On the SAGA algorithm with decreasing step.** *with B. Bercu and L. Fredes. Arxiv 2410.03760 (to appear in SIAM Journal on Control and Optimization).*

Preprints

2026 **Accelerated Stochastic Zeroth-Order Quasar-Convex Optimization.** *with J. Hermant. Arxiv:2607.19965.*

Talks (Conferences, Workshops)

June 2026 **17th French-Romanian Colloquium on Applied Mathematics**, *Institut Élie Cartan de Lorraine*, (Nancy)

May 2026 **MAD-Stat Seminar**, *Toulouse School of Economics*, (Toulouse)

May 2026 **Colloquium MARGAUx PhD Days 2026**, *Institut de Mathématiques de Bordeaux*, (Bordeaux)

April 2026 **Mathematics and Computer Science Doctoral School Day**, *Université de Bordeaux*, (Bordeaux)

January 2026 **7th annual edition of the workshop ai4industry**, *Bordeaux INP*, (Bordeaux)

July 2025 **Journées de Probabilités**, *Institut de Mathématiques de Marseille*, (Marseille)

May 2025 **Colloquium MARGAUx PhD Days 2025**, *La Rochelle*

June 2024 **Journées de Probabilités**, *Institut de Mathématiques de Bordeaux*, (Bordeaux)

Research visits

July 2026 **Laboratoire de Probabilités, Statistique et Modélisation (LPSM)**, *Sorbonne Université*, (Paris)

October 2026- **Departamento de Ingeniería Matemática (DIM) and Centro de Modelamiento Matemático (CNRS IRL2807)**, *Universidad de Chile*, (Santiago, Chile)

Other training courses

2021 **Various one-off training**, *OpenClassrooms*, Distance learning

- Module 1: Explore your data with unsupervised algorithms.
- Module 2: Create powerful data models.
- Module 3: Get started with machine learning.
- Module 4: Discover Python libraries for data science.
- Module 5: Get started with Python for data analysis.
- Module 6: Implement your relational databases with SQL.

Languages skills

French Native.

English High.

Computational Skills

- R
- SQL
- IBM SPSS Statistics.
- Python
- MATLAB
- Stata
